

DMF INSTALLATION NOTES IN CONJUNCTION WITH TIMING MARKS

Applicable Clutch Kits: PDK43721DF & PDK43722DF

Application Info: Renault Trafic 2015-> 1.6L R9M.408 & R9M.450

Nissan Dualis & X-Trail 2013-> 1.6L R9M

The dual mass flywheel in these applications are fitted with a sensor ring. This must be timed correctly with the crankshaft of the vehicle for the vehicle to start and run correctly. As opposed to a conventional dowel pin, these are timed via an indent in the crank shaft and hole in the Dual Mass Flywheel.

**DURING INSTALLATION MAKE SURE THE HOLE IN THE FLYWHEEL IS
LINED UP WITH THE INDENT IN THE CRANKSHAFT**
